

## **B.I. Voyage, LLC, Appoints New Chief Data Architect**

*Leading Microsoft Partner in Data Warehousing & Business Intelligence Strengthens Resources*

**Monday January 9, 2012 -- Indianapolis, IN - [B.I. Voyage, LLC \(http://www.bivoyage.com\)](http://www.bivoyage.com)** announced today that Ted Tasker has joined the firm as Chief Data Architect, responsibilities will include the oversight of design, development, and support of big data systems like SQL Server Parallel Data Warehouse, real-time analytic services and other data/analytic infrastructures ensuring implementations meet our clients' requirements for BI Voyages' impressive and fast growing portfolio of global accounts. Ted Tasker comes with a wealth of experience within the Data Warehousing & Business Intelligence sector, with over 18 years of overall experience, and having spent the last four years at Microsoft where Ted was instrumental in numerous large corporate accounts adopting or expanding their use of Microsoft technologies to enable better strategic reporting and decision making. For the last two years at Microsoft, Ted's focus was on large data and Parallel Data Warehouse, where he worked with multiple PDW customers and created custom tools to help facilitate PDW adoption. Previous to Microsoft, Ted worked in Data Architecture with several other major corporations including Countrywide, Indymac Bank and Walt Disney Internet Group. Joining in advance of the launch of B.I. Voyage's, Database Consolidation Appliance Solutions, in partnership with Microsoft and HP, Ted will have many opportunities to apply his expertise.

Ted joins B.I. Voyage as Chef Data Architect to continue B.I. Voyage's ongoing success providing Data Warehousing & Business Intelligence services to many of the top companies in the United States and Internationally. Ted comments "I am thrilled to be joining B.I. Voyage, while at Microsoft I collaborated with B.I. Voyage on multiple Parallel Data Warehouse projects and as a result have great confidence in the company's technical abilities and commitment to quality of service. I believe B.I. Voyage offers me a unique opportunity to leverage my unique PDW expertise with a company who has already positioned themselves as the leading partner in the space."

Derek Comingore, Chief Technology Officer said "Ted's wealth of experience and industry knowledge has already made him a key addition to the B.I. Voyage family. We view his appointment as a sign of our commitment to being the leading Data Warehousing and Business Intelligence firm in our industry. Our new innovations and the increasing demand from our customers led us to look for an addition to our team who will fit in with our culture of innovation and exceptional service, and it is very fortunate that we were able to attract someone of Ted's caliber to fulfill the position of Chef Data Architect. I'm confident that Ted will play a key role in providing and implementing high quality Data Warehousing and Business Intelligence solutions for our clients."
